I AM's upcoming Autobiography features her Adventures with God in Hawaii. Many Spiritual Masters visited her there, and pods of dolphins gathered daily with her at dawn, as she practiced God-Contemplation and blessed our Living-Earth. By following God's guidance, she recovered from an "incurable disease" and healed many others.

Formerly, a model by profession and a trainer of championship horses, but after God's call she worked 22 years solely for Him. In order to best present God's messages, she studied computers, filmmaking, screenwriting, and TV production. Proving her dedication, she even changed her name to I AM when God requested her to. Her goal is to bring about Heaven on Earth, an Ideal World Democracy, to bless everyone with abundance and joy.
